An unknown enemy causes the appearance of multiple "time holes", forcing Sonic and his friends back in time. As a result, Sonic must band together with his past self to defeat this enemy and fix the timestream. Tails used to be voiced by young boys. In fact, boys did his voice from Sonic Adventure to Sonic Heroes. In Sonic Heroes, Tails' actor, William Corkery, was only 8 or 9, and could have had a long career being that fox. But after being on the job for only two years, Corkery was dismissed. From there, old sluts took over doing the little fox's voice to this day, and it seemed that Sega would never use a boy again. As a Tails fan, I find this obscene and depressing, knowing that Sega is disregarding the fact that Tails is a boy fox. I can imagine a lot young lads who thought of doing Tails' words but have been denied because of Sega's absurdity.

Yes, this game is cute and colorful as any Sonic video game. But with the disgustingness Sega continues to do to no end, I'll never play Sonic Generations or any subsequent Sonic game for as long as I live. Thank you Sega for ruining Tails. After the disappointing sonic games on this gens consoles, it's nice to see a game that stays true to the original sonic games. The 2D sections of this game are almost exactly the same as the original sections. The 3D parts are also great! Each stage is a recreation of a stage on a previous sonic games, whether it's sonic heroes or sonic unleashed, they all play great. The boss enemies are epic too. You'll be surprised at how many characters from the sonic series are in this game! Along with the main story, there are lots of challenges and an online mode. Playing this game almost makes me want to play sonic unleashed... almost. Sega couldn't have done a better job on bringing the series back to life, and I hope that the future sonic games will be like this one. 646f9e108c
